

For group leaders

Running your department

These work inside the departments you lead, and are refused elsewhere — the same command in somebody else’s department will tell you no. You can also use everything on the team sheet.

If you only remember three

/go
Your queue, who is loaded, what needs reviewing, what is at risk.

/task queue
Unassigned work, each with a button to pick an artist.

/who-is-free
Who has room before you promise anything.

Finding your way around

/desk — Your work in one place

/desk group	Your department: queue, capacity, reviews and risks
--------------------	---

Work and deadlines

/change — Reassign, hold, cancel and compensate

/change reassign <i>needs task, artist, reason</i>	Move a task to a different artist, keeping the original record
--	--

/change hold <i>needs task, reason</i>	Put a task on hold
--	--------------------

/change resume <i>needs task</i>	Take a task off hold
--	----------------------

/deadlines — Templates, dependencies, blockers and deadline changes

/deadlines depends <i>needs task, needs</i>	Record that one task needs another finished first
---	---

/deadlines undepend <i>needs task, needs</i>	Remove a dependency
--	---------------------

/deadlines extend <i>needs task, new_deadline, reason</i>	Request a later deadline for a task
---	-------------------------------------

/deadlines decide-extension <i>needs id, approve</i>	Approve or decline a deadline request
--	---------------------------------------

/review — Internal review and recording client decisions

/review queue	Work waiting for your internal review
/review decide <i>needs task</i>	Review one task: request changes or mark it ready for the client
/review awaiting-client	Work that has been sent to clients and has no decision yet

/task — Tasks, assignment and pay

/task queue	Unassigned tasks waiting for you to pick an artist
/task assign <i>needs task</i>	Choose the artist for a task and send them the offer
/task pay <i>needs task, amount</i>	Set pay (owner) or propose it (group leader)
/task edit <i>needs task</i>	Change a task
/task withdraw <i>needs task</i>	Take back an offer that has not been answered
/task helpers add <i>needs task, person, responsibility</i>	Add somebody to a task alongside the main artist
/task helpers remove <i>needs task, person</i>	Take somebody off a task (their record and any payments stay)
/task helpers pay <i>needs task, person, amount</i>	Set one contributor's pay (owner) or propose it (group leader)

/who-is-free	Who has room for more work, and who has not
---------------------	---

People and time

/team — Stand-in leaders and offboarding

/team recommend new <i>needs person, kind, note</i>	Recommend somebody
---	--------------------

Clients and orders

/problems — Problems reported by clients

/problems list	Reported problems
/problems view <i>needs id</i>	One reported problem in full
/problems decide <i>needs id, decision, note</i>	Judge whether a reported problem is in scope or extra work
/problems close <i>needs id, note</i>	Close a reported problem

/send — Release finished work to a client

/send check

See whether an item is ready to release, and what is blocking it

needs task

Where things show up

/desk group

Your department: the queue, who is loaded, what is waiting on your review, and which deadlines are at risk.

Private to you. Shows only the departments you lead.

The staff info board channel

Your department's board, refreshed automatically. Same message, edited in place.

Your DMs

Work submitted for your review, artists accepting or declining offers, blockers raised, and extension requests.

Falls back to the private staff channel if your DMs are closed.

/task queue

Unassigned work in your departments, each with a button to pick an artist. This is where new tasks show up for you.

Nowhere public

Your review decisions go to the artist as a DM, not to a channel. Nobody is corrected in front of the server.

The decision is still on the record — /my-work history shows every review on a task.

Worth knowing

You propose pay, the owner approves it

Nothing can be offered until they decide, so propose early.

A blocker is not a delay

Raise it. It is how the owner sees an order has stopped, and by what.

Standing in for another leader

Ask the owner for `/team stand-in grant`. It expires on a date by itself.
